Hi Mike and Gunter,

I just wanted to drop you a line and tell you that singer Kasia Sokalla is going to be sending you her demo materials in the next day or so. I think I mentioned her before but wanted to do so again.

She is one of the few people on my list of consummate musicians and all around wonderful people. She can do it all: classical, jazz, folk, pop etc. I've had the pleasure of working with her at church and at other gigs. When she chants the "In Paradisum" at funerals it never fails to bring tears to my eyes. But, probably the most impressive performances were the duo gigs we did, just electric bass and voice, playing standards at the Charles Playhouse Lounge! She is definitely one of those artists that is definitely deserving of higher critical acclaim.

So, please give her your every consideration and listen very closely to whatever she sends you. I think she would be a star addition to your roster.

Best,  
Ed
